Free database on: www.la-faculte.net published for NON-lucrative use

Ligne de réflexion du péricarde séreux:

Elle se fait autour des deux pédicules:
ligne de réflexion autour du pédicule artériel:
- aorte ascendante
- artère pulmonaire

Ligne de réflexion autour du pédicule veineux:
- veine cave supérieure et inférieure
- veines pulmonaires

Le feuillet viscéral tapisse les surfaces externes du myocarde et se réfléchit au niveau de la base des vaisseaux pour devenir feuillet pariétal déterminant une cavité péricardique et deux sinus:
- sinus transverse (sinus de THEILE)
- sinus oblique (cul-de-sac de HALLER)

LIGNE DE REFLEXION DU PERICARDE SEREUX

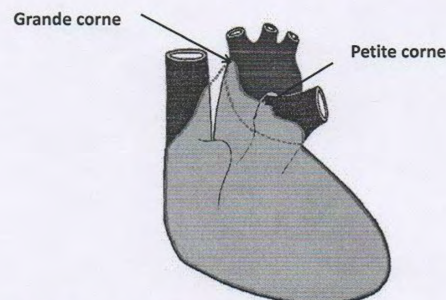

1. Veine cave supérieure
2. Sinus transverse du péricarde
3. Veine pulmonaires droites
4. Veine cave inférieure
5. Sinus oblique du péricarde
6. Veines pulmonaires gauches
7. Tronc pulmonaire
8. Aorte ascendante

Système cardio-necteur: tissu nodal

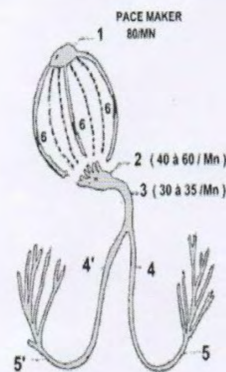

c'est le système de commande interne du cœur responsable de l'automatisme du cœur. Il assure la propagation de l'influx nerveux et la coordination des contractions musculaires atrio-ventriculaires.
Il est constitué d'un tissu musculaire particulier formé de monocytes myocardiques qui s'organisent sous forme d'amas cellulaires (nœuds) et de faisceaux

On distingue;

1. Nœud sinusal (nœud de KEITH et FLACK)
   Les faisceaux internodaux:
   - Fx internodal antérieur = fx de Bachmann
   - Fx internodal moyen ou intermédiaire= fx de wenckebach
   - Fx internodal postérieur= fx de thorel

2. Nœud atrio-ventriculaire (nœud d'ASHOFF et TAVARA)

3. Faisceau de HIS
   - Branche droite du fx de HIS
   - Branche gauche du fx de HIS
   - Réseau de PURKINJE droit
   - Réseau de PURKINJE gauche

SYSTEME CARDIO-NECTEUR

1. NOEUD DE KEITH ET FLACK (1907)
2. NOEUD D'ASHOFF ET TAWARA (1906)
3. FAISCEAU DE HIS (1893)
4. BRANCHE GAUCHE DU FAISCEAU DE HIS
4'. BRANCHE DROITE DU FAISCEAU DE HIS
5. RESEAU DE PURKINJE DU VG (1845)
5'. RESEAU DE PURKINJE DU VD (1845)
6. VOIES INTER-NODALES (VIN)

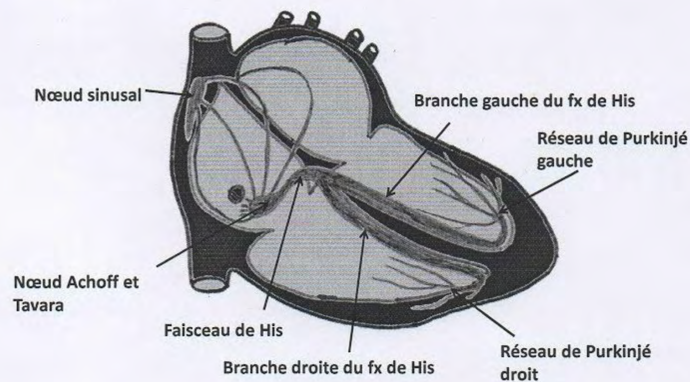

INNERVATION INTRINSEQUE DU COEUR
